

Michał Andrzej Liberka

Lista publikacji

1. Liberka, M., Zychowicz, M., Zychowicz, W., Chorazy, S. (2022). Neutral dicyanidoferrate(II) metalloligands for the rational design of dysprosium(III) single-molecule magnets. *Chemical Communications*, 58, 6381-6384.
2. Liberka, M., Zychowicz, M., Hooper, J., Nakabayashi, K., Ohkoshi, S., Chorazy, S. (2023). Synchronous switching of dielectric constant and photoluminescence in cyanidonitrido-rhenate-based crystals. *Angewandte Chemie – International Edition*, 62(41), e202308284.
3. Zakrzewski, J. J., Liberka, M., Wang, J., Chorazy, S., Ohkoshi, S. (2024). Optical phenomena in molecule-based magnetic materials. *Chemical Reviews*, 124(9), 5930–6050.
4. Liberka, M., Zychowicz, M., Chorazy, S. (2024). Solvato- and vapochromic exchange-coupled Dy₂ single-molecule magnets achieved by attaching iron-cyanido metalloligands. *Inorganic Chemistry Frontiers*, 11, 2081-2097.
5. Liberka, M., Chorazy, S. (2024). Making soluble Dy₂ single-molecule magnets red emissive through their functionalization by ruthenium–cyanido luminophores. *Chemical Communications*, 60, 11351-11354.
